Sherry—Purple .....	.25
Yellow Gem—Yellow .....	.25

# INTRODUCING

## FOR 1943

### All Four on the Honor Roll of Flower Grower Magazine

We cannot recommend these four dahlias too highly. Each is a great advance in its type, size and color.

#### GOLD MINE (FD)

This dahlia has utter perfection of form and clear, beautiful color. Pinard yellow, lightly shaded coppery pink, especially on reverse. Average size of blooms, field grown, is 10-in. x 5-in. When disbudded for size it grows to 12-in. x 7-in. A medium low grower, the blooms rise high out of the bush on magnificent stems, facing up and out. There is never a hint of a weak or droopy stem. It should have very little competition on the exhibition table. Roots \$10.00

#### MONARCH (FD)

We believe this dahlia to be the finest red formal to date. Reports from others who have grown Monarch on trial bear us out. It is a rich blood red with a velvety sheen. Most other reds appear dirty or faded in comparison. Its average field grown size is 7-in.-8-in. x 4-in.6-in. but can easily be grown to 10-in. with great depth when given a little extra care. It blooms very freely over a long season. Facing slightly up. Bushes are medium low and the stems are long and straight. Freely branching. Besides filling a need for a better exhibition formal red, it is tops for cutting. Roots \$7.50

#### CHAUTAUQUA PRINCESS (FD)

When a dahlia has everything one wishes a dahlia to have, and in such superlative degree, it seems useless to mention the fine qualities separately. Such a dahlia is Chautauqua Princess, and we are very happy to offer it to dahlia growers. It seems to have no faults. The color is a lovely shade of bluish mauve. Blooms average 6-in.-8-in. x 4-in.-6-in. in the field but are easily increased in size by show garden conditions and a minimum of disbudding. It blooms freely on stems we don't believe can be improved. Excep-

tionally long lasting when cut. It is ideal as a cut flower as only one joint must be disbudded to obtain very long stems.

Stock very limited.

Roots \$7.50 net

#### **YELLOW KITTEN (Min. FD)**

A miniature that can be depended on to grow well and bloom freely under the most adverse conditions. The flowers face and average 3-in. x 2-in., each one always a perfect specimen on stems that are just right. Medium height bushes. It begins blooming early and continues in greatest abundance until frost. The color is a clear picric yellow with the center flushed a light pink. It is a perfect small florist's dahlia and the more you cut it the more it blooms, branching freely from below. The flowers have very tight centers which they keep right through the season. A bush in full bloom is a sight to see, as well as a large bunch of them cut. A. D. S. Certificate.

Roots \$3.00

Clumps \$5.00 net
